

Hi there,

I'm Page Keller, a former educator with 25+ years of experience in learning assistance, peer education, and student success. During my time in higher education, I cherished the insights and resources my peers shared with me, so I'd like to pay it forward in my new role at Knack.

Each month, I will share advice, research, and stories I believe you'll find valuable to your efforts supporting students. Given Knack is focused on amplifying the power of peer-to-peer support, I'll lean toward sharing peer education insights, but the newsletter will generally be filled with content that will boost how you achieve key student outcomes.

My career would not have turned out the way it has without the connections I made along the way, so what better way to kick off this newsletter than focusing on relationships.

Relationship-driven environments maximize the benefits of student support resources, fosters sense of belonging, and ultimately reduces stress and anxiety.

Learn how relationship-driven tutoring can make a difference for your students by reading this month's newsletter.

Enjoy!

The Power of Relationship-Driven Tutoring

Consistent peer-to-peer tutoring creates psychological safety, enhances the learning process, and provides academic and social support.

Peer Tutors as "Student Consultants"

"Because the consultants are peer tutors as opposed to faculty or staff members, students are less reticent to ask questions and receive the guidance they need."

New Recurring Sessions Feature Supports Relationship-Based Tutoring

Working with a dedicated tutor over time helps students build relationships that set them up for ongoing success, and our new "Recurring Sessions" feature makes engaging in frequent sessions a simple process for tutors and students.

How Hampton University Increased Tutoring Engagement by 50%

During our most recent webinar, Hampton University's Jordan Carson detailed why Knack's turnkey, fully managed peer tutoring solution was the most effective way for them to enhance accessibility, boost engagement, for their 3,000+ students, including approx. 300 who were exclusively online.
